At the outset, we would like to thank President Dr. Santosh Kadam, Hon. State Secretary Dr. Anil Avhad and all office bearers of IMA MS for appointing us to the MAHIMA Editorial Board for the year 2024-25.

It is a matter of pride that the MAHIMA won for IMA MS, IMA News Bulletin award at IMA HQ National IMA conference held at Hyderabad, Telangana. This the 7th National award in the last 10 years, a testimony to the growing stature of the Bulletin. IMA MS, local branches and individual members bagged numerous awards at the same conference. Congratulations to all the award winners!.

830 million people in the world were living with diabetes In 2022 as compared to 200 million in 1990. The theme for this year's World diabetes day was 'Diabetes and wellbeing'. Diabetes can affect a person's well-being. Diabetics may have associated physical health problems, mental health issues such as anxiety, depression etc coupled with the stress of long-term nature of the disease, complications and treatment. One has to consider both physical and mental health aspects in long term management of the diabetic patient. A variety of interventions are available which help improve wellbeing.

In 2022, India there were about 66,000 new HIV infections and about 2.5 million people were living with HIV. The theme for World AIDS Day 2024 "Take the rights path: My health, my right!" emphasizes the importance of upholding human rights as an important approach to combat HIV/AIDS. It highlights that ensuring individuals' rights is essential for effective health interventions and ending the AIDS epidemic.

Please find reports of MASTACON hosted by IMA Thane, IMA National sports hosted by IMA Sambhajinagar, IMA Hqs NATCON held at Hyderabad, other conferences and activities of local branches and IMA MS.

PRESIDENT'S MESSAGE

It gives me great pleasure and a proud feeling to pen a message for MAHIMA February issue as President of IMA Maharashtra State.

My team of IMA MS 24-25 was installed at MASTACON 24 hosted by IMA Thane at Kashinath Ghanekar Auditorium. Everyone appreciated the event, the conference, annual State Council meeting, installation ceremony, banquet, cultural programme and hospitality extended by MASTACON organising committee and IMA Thane President Dr Sunil Budhlani and his team.

We felt drained after the successful MASTACON and took a short break. In the very next week, I visited media houses and gave interviews about the IMA manifesto.

As President, I extended help to doctors at VN Desai Hospital Mumbai regarding violence at the hospital. The first Ordinary council meeting was held on the zoom platform followed by 1st Office bearers meeting at IMA state office. Work distribution was done and a big responsibility was given to all the 9 vice Presidents & Jt Secretaries to visit branches in their respective regions.

A large contingent of the IMA Maharashtra State team attended NATCON at Hyderabad. Then, there was the issue of FDA circular permitting homeopathic doctors to prescribe allopathic drugs and a team of IMA MS met FDA Commissioner & made a representation to take back the unwarranted circular.

Recently we met the State Health Minister, Jt Director & Commissioner Health Services to follow up and discuss our long-standing demands.

After rigorous follow up, the much-awaited MMC election has been announced. We have to form the IMA panel & work towards electing our own 9 IMA members on this important statutory body, the MMC.

The 1st State Executive committee meeting is scheduled to be held on 2nd February & we are busy preparing for the same.

I hope our hard work in the remaining tenure will bring success in all our endeavours.
Jai Hind, Jai Maharashtra.

Long live IMA.

Dr. Santosh Kadam, President, IMA MS.

Meeting with Hon. State Health Minister Mr. Prakash Abitkar and visit to Jt Director Health services & Commissioner Health services

HON. STATE SECRETARY MESSAGE

Warm Greetings from IMA Maharashtra State!

As we embark on our journey of commitment and conviction in this year, I extend my deepest gratitude to each of you for supporting and endorsing my candidature for the prestigious post of Honorary Secretary of IMA Maharashtra State.

I thank my immediate predecessor Dr. Saurabh Sanjanawala for doing excellent job and introducing time-based work ethics. I will try my best to take this momentum of good work initiated by him forward.

This year we aim to address pressing challenges in the medical field through collaborative and result oriented approach. With this in mind, this year we will form issue-based committees which will focus on areas such as BMW, Fire NOC, Hospital Registration Renewal & Violence against Doctors, etc. We have almost completed formation of various sub committees and many of them have started their work in full swing.

I had privilege to attend the IMA National sports at IMA Chhatrapati Sambhajnagar branch. It was a well-organized and spectacular event graced by our National President Dr. Asokan Sir and many luminaries from National as well as State IMA.

Our IMA team met Mr. D.R. Gahane, Jt. Commissioner Food and Drug Administration regarding the circular issued by FDA allowing homeopathic doctors to prescribe allopathy medicine and submitted the related documents.

Recently we met the Hon. Health Minister Maharashtra State Mr. Prakash Ambitkar and appraised him of our Demand of deletion of few provisions in Nursing home registration act Amendment 21. We got a very positive response from him.

Friends, together we continue to make positive impact on Healthcare in Maharashtra State and beyond. Let us stand united in our efforts to uphold the dignity of our profession. I am confident that our collective and collaborative efforts will definitely give encouraging results. Let us uphold the values of our Noble profession and work tirelessly for healthy and prosperous community.

I wish all the best to all of you.

The Indian Medical Association (IMA) released a health-focused manifesto for the Maharashtra assembly elections at Nagpur on 4/11/2024. The aim is to meet each political candidate to emphasize the importance of the health care agenda with IMA members in each constituency engaging local candidates on these issues.

The manifesto tackles critical healthcare issues that have long needed attention. At the forefront are assaults on healthcare workers, ensuring safety and protection for medical professionals, and biomedical waste management, effective disposal and management of hazardous medical waste.

The manifesto also prioritizes resident doctors' working conditions, aiming to improve their work environment and reduce burnout. Additionally, it addresses the quality of medicines, ensuring access to high-quality, affordable medications. Other key areas include hospital registration processes, streamlining registration and licensing procedures, and fire safety approvals, enhancing fire safety measures in healthcare facilities. The manifesto focuses on Mahatma Jyotirao Phule Jan Arogya Yojana (MJPJAY), strengthening the state's health insurance scheme, Medical Education Reforms, improving medical education standards and accessibility, and Maharashtra Medical Council's Governance, enhancing transparency and accountability in medical governance.

The 8 demands include: 1. Strict law to prevent attacks on healthcare workers 2. Simplify hospital registration and renewal process 3. Modernise biomedical waste management with affordable rates 4. Implement a one-time fire safety clearance process for hospitals 5. Include private hospitals under MPJAY 6. Improve living and working conditions for med students 7. Abolish heavy bond policy for PG medical students 8. Conduct democratic elections of Maharashtra Medical Council 9. Strengthen drug quality control by upgrading testing facilities.

Uninterrupted access to quality and affordable care is critical to the well-being of people living with diabetes. However, achieving full well-being requires more than access to care

Well-being interventions

In patients with diabetes, psychological well-being constructs (e.g., optimism, positive affect) have been associated with superior medical outcomes, including better glucose control and lower mortality rates. Well-being interventions may be well-suited to individuals with diabetes, as they are simple to deliver, broadly applicable across a range of psychological distress, and may help increase self-efficacy and motivation for diabetes self-care. *Positive psychology interventions* include *online self-paced intervention* (to enhance positive emotion or adaptive coping) and *positive affect intervention* (delivered one in-person visit and -then over phone calls). *Mindfulness based interventions* are delivered in group sessions.

The theme for World Diabetes Day 2024-26 is Diabetes and well-being. The campaign goal is about putting well-being at the heart of diabetes care. In the first year of the campaign, the focus is on awareness, to ensure that the impact of diabetes on well-being is well understood. It involves demonstrating the impact of diabetes on well-being to a global audience and highlighting the lived experiences of people living with diabetes and their caregivers. The second year of the campaign will focus on impact of diabetes on well-being and involves mobilising audiences to put well-being at the heart of diabetes care. In the third year, the emphasis will be on change- building on year 1 and 2 to ensure a lasting legacy in healthcare policy.

39.9 million people globally live with HIV, and 1.3 million new infections were reported in 2023.

World AIDS day serves as a reminder to prevent new HIV infections and provide essential services to people living with HIV. The theme for World AIDS Day 2024 is "Take the Rights Path: My Health, My Right!". The theme calls on people to:

- Champion the right to health
- Address inequalities that hinder progress in ending AIDS
- Speak up for health equity
- Ensure everyone has the right to quality healthcare services

The theme focuses on the importance of accessible healthcare and ending stigma and discrimination to achieve the Sustainable Development Goals target of ending AIDS by 2030. The theme is a rallying cry for accessible, rights-based healthcare that empowers those affected by HIV/AIDS to live vibrant and fulfilling lives.

A rights-based approach is not just a strategy; it is a commitment to uphold the dignity, health, and autonomy of every individual, especially those with vulnerabilities and are most at-risk. The stigma and discrimination that stand as formidable barriers to accessing prevention, treatment, and care must be boldly tackled.

Appeal to all members -----

Dear all,

As you all are aware, our successful Social Security Scheme has metamorphosed into Sanjeevani scheme, which is very logical and most economical as a life cover as compared to any Term Insurance plan. We were wishing enormous response by way of new membership, but this has not stood to our expectations. You as active Managing committee members, coordinators and volunteers need to take the membership drive to your heart and enroll maximum new members. Also, propagate this beneficial scheme in local CMEs, academic programs etc. We can provide slides, information material, forms etc., Our website (IMA MS SSS) is quite active and payment is also streamlined online through payment gateway, enabling instant confirmation.

We have confidence in you and your capabilities and network and at least 3 new members from each if you are expected to be enrolled by Mar 2025. We have also authorized Policy Era to promote the SSS and they may contact you too. So now that there is no reason to point to any deficiency, we urge and expect real work from you and give justice to your post...

We are focusing on increasing HBI membership. Communication with various branch Presidents and Secretaries is in progress.

Regarding nursing home registration and various Issues, IMA MS delegation and HBI team is going to meet the State Health minister very soon and we will update you accordingly.

Recently at Buldhana, many doctors were issued notices from fire department. So the HBI team under the guidance of State President Dr. Santosh Kadam contacted Buldhana IMA and addressed IMA members in an online meeting. They were made aware about all the fire GRS (grievance redressal services) and necessity to obtain fire NOC as per norms and they all agreed. We suggested them to take the matter to the fire officer and corporation in-charge I confidently and ask for more time to complete the work.
